

Heathfield Sand And Gravel Quarry - Extension at Wester and Easter Coillemore

Drop-in Consultation Event

Station Hotel, Alness
3.00-4.30pm and 5.30-7.00pm,
Tuesday 23 June, 2026

Munro Construction (Highland) Ltd intend to submit a planning application for the proposed extension of the Heathfield Sand and Gravel Quarry at Wester and Easter Coillemore. The extension allows for the removal of approximately 500,000 tonnes of sand and gravel, with land reinstatement, including new ponds.

This engagement event is the second of two that are required, as the planning application falls within the 'Major' category (in this case, as the site extraction area covers more than 2 hectares). This second event provides more detailed information on the application proposals, taking account of comments received at the first drop-in event, held in May.

The drop-in event information sheets can also be viewed online at www.munrohighland.co.uk

Responses will be fully considered but are not representations to the Council. If the planning application is submitted, there will be an opportunity to make representations on that application to the Council.

Please give us your comments at the event, or email enquiry@munrohighland.co.uk
