Drop-in Consultation Event

Station Hotel, Alness
3.00-4.30pm and 5.30-7.00pm,
Tuesday 23 June, 2026

Application Proposals

Most of the sand and gravel has already been extracted from the Phase 1 and 2 quarry areas and reinstatement of the land continues.

Parts of these areas will remain in active use for grading, processing, storage and removal of material extracted at Phase 3. The quarry access road and junction will remain in use, along with the weigh bridge and site office.

Extraction in the Phase 3 areas will proceed in a phased plan, working from west to east. Land will be reinstated as the extraction process proceeds, providing new woodland and ponds. The Reinstatement and Habitat sheet shows details of these proposals.

A small area of more recent tree planting will be removed but compensatory planting will be provided.
